

### **Short Description of the Orchestra**

The Southwest German Philharmonic Orchestra based in Constance is one of the most important cultural bodies in southwest Germany. The orchestra's core work comprises concerts in the venerable Council Building with a repertoire ranging from baroque to modern music and featuring internationally renowned soloists and guest conductors. This is supplemented with a music education programme, **eduART** concerts and chamber concerts with ensembles including members of the Southwest German Philharmonic Orchestra. The programme is rounded off with a series of concerts at the Steigenberger Inselhotel in winter, as well as concerts in the cathedral with monumental symphonic works by Anton Bruckner in summer, the open-air concerts on Mainau Island and a free »Classic on the Lake« concert that marks the end of the season.
